Science Center  
Publications, Reports,  
and Abstracts  
for Calendar Year 2000**

by

**Laura Garner and Jon A. Gibson**

**August 2001**

## Recent Issues in This Series:

- 00-11 **CTD Data Collection on Northeast Fisheries Science Center Cruises: Standard Operating Procedures.** By M.H. Taylor and C. Bascuñán. August 2000.
- 00-12 **Stock Assessment of Georges Bank Haddock, 1931-1999.** By R.W. Brown and N.J. Munroe. [A report of the 3rd Transboundary Resources Assessment Committee Meeting.] September 2000.
- 00-13 **Northeast Fisheries Science Center Publications, Reports, and Abstracts for Calendar Year 1999.** By L. Garner and J.A. Gibson. September 2000.
- 00-14 **Report of the 31st Northeast Regional Stock Assessment Workshop (31st SAW): Public Review Workshop.** [By the 31st Northeast Regional Stock Assessment Workshop.] October 2000.
- 00-15 **Report of the 31st Northeast Regional Stock Assessment Workshop (31st SAW): Stock Assessment Review Committee (SARC) Consensus Summary of Assessments.** [By the 31st Northeast Regional Stock Assessment Workshop.] October 2000.
- 00-16 **Assessment of the Georges Bank Winter Flounder Stock, 1982-1987.** By R.W. Brown, J.M. Burnett, G.A. Begg, and S.X. Cadrin. [A report of Northeast Regional Stock Assessment Workshop No. 28.] December 2000.
- 00-17 **Assessment of the Georges Bank Atlantic Cod Stock for 2000.** By L. O'Brien and N.J. Munroe. [A report of the 3rd Transboundary Resources Assessment Committee Meeting.] December 2000.
- 01-01 **Description of the 2000 Oceanographic Conditions on the Northeast Continental Shelf.** By M.H. Taylor and C. Bascuñán. February 2001.
- 01-02 **Update Assessment of American Plaice in the Gulf of Maine - Georges Bank Region for 2000.** By L. O'Brien and C. Esteves. [A report of Northeast Regional Stock Assessment Workshop No. 32.] February 2001.
- 01-03 **Assessment of the Silver Hake Resource in the Northwest Atlantic in 2000.** By J.K.T. Brodziak, E.M. Holmes, K.A. Sosebee, and R.K. Mayo. [A report of Northeast Regional Stock Assessment Workshop No. 32.] March 2001.
- 01-04 **Report of the 32nd Northeast Regional Stock Assessment Workshop (32nd SAW): Public Review Workshop.** [By the 32nd Northeast Regional Stock Assessment Workshop.] April 2001.
- 01-05 **Report of the 32nd Northeast Regional Stock Assessment Workshop (32nd SAW): Stock Assessment Review Committee (SARC) Consensus Summary of Assessments.** [By the 32nd Northeast Regional Stock Assessment Workshop.] April 2001.
- 01-06 **Defining Triggers for Temporary Area Closures to Protect Right Whales from Entanglements: Issues and Options.** By P.J. Clapham and R.M. Pace, III. April 2001.
- 01-07 **Proceedings of the 14th Canada-USA Scientific Discussions, January 22-25, 2001, MBL Conference Center, Woods Hole, Massachusetts.** By S. Clark and R. O'Boyle, convenors. May 2001.
- 01-08 **TRAC Advisory Report on Stock Status: A Report of the Fourth Meeting of the Transboundary Resources Assessment Committee (TRAC), St. Andrews Biological Station, St. Andrews, New Brunswick, April 17-20, 2001.** [By the 4th Transboundary Resources Assessment Committee Meeting.] July 2001.
- 01-09 **Results of a Field Collection of Biopsy Samples from Coastal Bottlenose Dolphin in the Mid-Atlantic.** By J. Nicolas, D.C. Potter, C.W. Potter, and P.E. Rosel. July 2001.
- 01-10 **Assessment of the Georges Bank Atlantic Cod Stock for 2001.** By L. O'Brien and N.J. Munroe. [A report of the 4th Transboundary Resources Assessment Committee Meeting.] July 2001.
- 01-11 **Protocol and Guide for Estimating Nucleic Acids in Larval Fish Using a Fluorescence Microplate Reader.** By E.M. Caldarone, M. Wagner, J. St. Onge-Burns, and L.J. Buckley. July 2001.

## ORDERING INFORMATION

For the online version of this document (<http://www.nefsc.nmfs.gov/nefsc/crd/crd0112/crd0112.htm>), each bibliographic entry has a link which opens an e-mail request to the senior NEFSC author or a contact acting in his/her stead. Requesting a copy of a work via such e-mail is recommended.

Should you need or want to request a copy of a work by postal mail, then the postal address for the senior NEFSC author or contact is associated with the two-letter code at the end of the bibliographic entry. The key to the codes is as follows:

- MF = National Marine Fisheries Service, 212 Rogers Ave., Milford, CT 06460-6435
- MS = NOAA/University of Massachusetts Cooperative Marine Education and Research Program, c/o Environmental Institute, Blaisdell House, University of Massachusetts, Amherst, MA 01003-0040
- NG = National Marine Fisheries Service, 28 Tarzwell Dr., Narragansett, RI 02882-1199
- NS = National Marine Fisheries Service, National Systematics Laboratory, National Museum of Natural History, 10th & Constitution Ave., N.W., MRC 153, Washington, DC 20560-0153
- RG = NOAA/Rutgers University Cooperative Marine Education and Research Program, c/o Institute of Marine and Coastal Sciences, P.O. Box 231, New Brunswick, NJ 08903-0231
- RI = NOAA/University of Rhode Island Cooperative Marine Education and Research Program, c/o Graduate School of Oceanography, Narragansett Bay Campus, Narragansett, RI 02882-1197
- SH = National Marine Fisheries Service, 74 Magruder Rd., Highlands, NJ 07732
- WH = National Marine Fisheries Service, 166 Water St., Woods Hole, MA 02543-1026

## INTRODUCTION

The following bibliography consists of three sections: 1) anonymously peer-reviewed publications (“publications”), 2) transparently (*i.e.*, not anonymously) peer-reviewed and non-peer-reviewed publications (“reports”), and 3) abstracts for oral presentations and poster displays (“abstracts”). The bibliography covers those works which were prepared by Northeast Fisheries Science Center (NEFSC) employees, and which have a 2000 publication date. Authors who were NEFSC employees at the time they composed their works, and/or who were NEFSC employees during all or part of 2000, are denoted in the list by capital letters.

Editorial treatment of bibliographic entries is largely based on the Council of Biology Editors style manual, fifth edition<sup>1</sup>. Special treatment includes the use of the abbreviations “n.p.” and “p.n.k.” throughout the “Abstracts” section of the bibliography to indicate, respectively, that an abstract is not paginated, or that the pagination is not known. Also, there are foreign recipients of the issues of this series, many of whom do not use English as a primary language. Consequently, because English-language-based acronyms are particularly difficult to comprehend by non-English-using readers, the standardized abbreviations of these acronyms – when such acronyms appear in serial titles – have been included within square brackets immediately following the acronyms.

Availability of reprints of publications and of photocopies of reports and abstracts varies for each work. **UNDER ALL CIRCUMSTANCES, THOUGH, ANY INITIAL REQUEST FOR A REPRINT OR PHOTOCOPY SHOULD BE DIRECTED TO THE SOLE/SENIOR NEFSC AUTHOR OF THE WORK. SEE PAGE ii FOR DETAILS.** The NEFSC’s Woods Hole Laboratory Library maintains an extensive, although not complete, archive for publications and reports by NEFSC authors, and may be able to supply a reprint or photocopy if the author cannot do so. Secondary requests to the library for a publication or report should be in writing (National Marine Fisheries Service, Northeast Fisheries Science Center, Woods Hole Laboratory Library, 166 Water St., Woods Hole, MA 02543-1026). Expect a significant delay in receiving a reprint or photocopy when requesting it from the library rather than from the author.

Bibliographies of publications, reports, and abstracts for earlier years are available online at: <http://www.nefsc.nmfs.gov/nefsc/publications/>

## ***Northeast Fisheries Science Center Reference Documents***

**This series** is a secondary scientific literature series designed to assure the long-term documentation and to enable the timely transmission of research results by Center and/or non-Center researchers, where such results bear upon the research mission of the Center (see the outside back cover for the mission statement). These documents receive internal scientific review but no technical or copy editing. The National Marine Fisheries Service does not endorse any proprietary material, process, or product mentioned in these documents.

To obtain additional paper copies of documents in this series, contact the senior Center author of the desired document. Refer to the title page of the desired document for the senior Center author's name and mailing address. If there is no Center author, or if there is corporate (*i.e.*, non-individualized) authorship, then contact the Center's Woods Hole Laboratory Library (166 Water St., Woods Hole, MA 02543).

To access electronic copies of documents in this series, go to <http://www.nefsc.nmfs.gov/nefsc/publications/>, choose the "Selected, Full-Text, Online Publications" link, then scroll down to the current-year section of the list of titles to find the document.

**This report's** publication history is as follows: manuscript submitted for review--July 27, 2001; manuscript accepted through technical review--August 21, 2001; manuscript accepted through policy review--August 21, 2001; and camera-ready copy submitted for publication--August 22, 2001. This report may be cited as:

Garner, L.; Gibson, J.A. 2001. Northeast Fisheries Science Center publications, reports, and abstracts for calendar year 2000. *Northeast Fish. Sci. Cent. Ref. Doc.* 01-12; 22 p. Available from: National Marine Fisheries Service, 166 Water St., Woods Hole, MA 02543-1026.

## Publications and Reports of the Northeast Fisheries Science Center

The mission of NOAA's National Marine Fisheries Service (NMFS) is "stewardship of living marine resources for the benefit of the nation through their science-based conservation and management and promotion of the health of their environment." As the research arm of the NMFS's Northeast Region, the Northeast Fisheries Science Center (NEFSC) supports the NMFS mission by "planning, developing, and managing multidisciplinary programs of basic and applied research to: 1) better understand the living marine resources (including marine mammals) of the Northwest Atlantic, and the environmental quality essential for their existence and continued productivity; and 2) describe and provide to management, industry, and the public, options for the utilization and conservation of living marine resources and maintenance of environmental quality which are consistent with national and regional goals and needs, and with international commitments." Results of NEFSC research are largely reported in primary scientific media (*e.g.*, anonymously-peer-reviewed scientific journals). However, to assist itself in providing data, information, and advice to its constituents, the NEFSC occasionally releases its results in its own media. Those media are in four categories:

***NOAA Technical Memorandum NMFS-NE*** -- This series is issued irregularly. The series typically includes: data reports of long-term or large area studies; synthesis reports for major resources or habitats; annual reports of assessment or monitoring programs; documentary reports of oceanographic conditions or phenomena; manuals describing field and lab techniques; literature surveys of major resource or habitat topics; findings of task forces or working groups; summary reports of scientific or technical workshops; and indexed and/or annotated bibliographies. All issues receive internal scientific review and most issues receive technical and copy editing.

***Northeast Fisheries Science Center Reference Document*** -- This series is issued irregularly. The series typically includes: data reports on field and lab observations or experiments; progress reports on continuing experiments, monitoring, and assessments; background papers for scientific or technical workshops; and simple bibliographies. Issues receive internal scientific review, but no technical or copy editing.

***Fishermen's Report*** -- This information report is a quick-turnaround report on the distribution and relative abundance of commercial fisheries resources as derived from each of the NEFSC's periodic research vessel surveys of the Northeast's continental shelf. There is no scientific review, nor any technical or copy editing, of this report.

***The Shark Tagger*** -- This newsletter is an annual summary of tagging and recapture data on large pelagic sharks as derived from the NMFS's Cooperative Shark Tagging Program; it also presents information on the biology (movement, growth, reproduction, etc.) of these sharks as subsequently derived from the tagging and recapture data. There is internal scientific review, but no technical or copy editing, of this newsletter.

**OBTAINING A COPY:** To obtain a copy of a *NOAA Technical Memorandum NMFS-NE* or a *Northeast Fisheries Science Center Reference Document*, or to subscribe to the *Fishermen's Report* or the *The Shark Tagger*, either contact the NEFSC Editorial Office (166 Water St., Woods Hole, MA 02543-1026; 508-495-2228) or consult the NEFSC webpage on "Reports and Publications" (<http://www.nefsc.nmfs.gov/nefsc/publications/>).

**ANY USE OF TRADE OR BRAND NAMES IN ANY NEFSC PUBLICATION OR REPORT DOES NOT IMPLY ENDORSEMENT.**
